BDCP-CWF Cmts PCL et al.pdf

The Honorable Secretary Jewell, Secretary Prizker, Administrator McCarthy, State and Federal officials:

On behalf of the Conservation, Fishing and Tribal groups signatory to the attached letter, please accept these comments on the BDCP-CWF DEIR-DEIS & REIR and SEIS. Fundamental flaws in these NEPA documents render them useless for federal decisions. Viable alternatives in keeping with federal statute and regulation exist, that are cost effective and less damaging to water quality and our iconic salmon heritage. These legally required and cost effective solutions have been ignored by the project proponents—a select group who are seeking to jump to the front of the line to receive federal benefits largely funded by the tax paying public.
